About This Game

An updated and remastered version of the smash-hit psychological survival adventure, made by one man and played by hundreds of thousands!

The masked protagonist must escape from a city ravaged by disease, by any means necessary. Starving and exhausted, he has begun to question how much of what he sees is even real.

How to survive is up to YOU. Sneak through without firing a single shot, or kill everything in your path. Eat and sleep well, or resort to drugs to keep going. Search for survivors, or try to escape the city alone. Look after your mental health, or descend into madness...

Lone Survivor is unusual mix of survival horror, stealth mechanics, adventure games, a virtual pet, a physical and psychological survival simulation and a truly interactive story. The player is encouraged to role-play and forget about the game's workings, while the story moulds to match the player's actions. This is a game where your choices genuinely matter.

The Director's Cut Edition of the game now includes a great deal of new content, new lighting engine and other graphical and audio enhancements, and the two new endings and three new side-quests also seen in the recent PlayStation releases. The update is FREE to existing customers.

Key Features

- Five years in the making

-
- Two entirely different paths through the game, with many variations
 - A brave and adult story with warmth, humor and even hope to be found within the darkness
 - An invisible psychologist watches your every move
 - A unique visual style mixing classic and modern techniques
 - 4-6 hours play per path
 - Over 125 beautiful hand-painted locations
 - Hundreds of items to experiment with or craft, and many optional and hidden side-quests
 - Approximately 35 original pieces of music from UK charting producer Jasper Byrne

Additionally, The Director's Cut edition features:

- Enhanced lighting engine with lens flares, additional lights and new film-like effect
- Several new areas and one new enemy type
- Three new sidquests involving around 20 new items
- Two entirely new endings
- New dialogue for all the characters
- New music, sleep and game over screens
- Ending 'collection' and 'The Ritual'
- Many small fixes, easter eggs and improvements
- 100% FREE DLC!

English

The game about a guy trying to survive in apocalyptic world
It's up to you that have to choose the story to begin with

6 ending (that one ending is True ending need to complete in NEWGAME+)

Doesn't matter what you choose. It's up to you to decide the story.

Ammo is your only option to get around but you can get pass every (living) thing with distraction

Help or don't help the survivors

Your GF mad bc she want your love

I already played on PSvista so already got extra stuff in that version

There is no Jumpscares.. Just high tense what could happen in that direction.

Pills can help you (just use it wisely)

Help me

Sleep

Always take care chuck

and sanity
